"A bill requesting filtered water bottle refilling stations be placed in Kyle Field."

Whereas (1): Kyle Field currently seats over 110,000 people with an expected capacity of 102,512 in the 2015 season making it the largest stadium in Texas and the SEC; and,

Whereas (2): "... Texas A&M deserves the finest collegiate facilities and the goal is to build the greatest venue in the history of college football" as written on kylefield.com; and,

Whereas (3): Dehydration and overheating are serious medical issues that some Aggies face during football games due to lack of water consumption; and,

Whereas (4): A large amount of waste is accumulated after each home game; and,

Whereas (5): Much of this waste is collected and recycled through a project started by Environmental Issues Committee called Kyle Field Recycling; and,

Whereas (6): Installing filtered water bottle refilling stations would reduce the waste produced on Texas Aggie game days.
