Lot 50 Labeling Bill

"A bill requesting the re-labeling of lot 50."

- Whereas(1):** Parking lot 50 is a large lot with many rows that fill quickly, the speed of which varies from day to day resulting in students parking in different spots almost every day which can be hard to remember; and
- Whereas(2):** These rows go back quite deeply, and it is easy for a smaller car to get covered by a larger one, making it difficult to find your car if you are searching; and
- Whereas(3):** There is evidence of a previously existing lettering system which would mark each row with a letter "A, B, C...", etc.; and
- Whereas(4):** The majority of these signs have fallen or been taken down, but it appears that the mounting hardware is still there; and
- Whereas(5):** The parking spots are not numbered so this is the only way to easily recall where you left your car.
