## Accelerated Ticket Notification Bill

*"A bill requesting an immediate email notification to the recipient when a parking ticket is issued."*

- Whereas(1):** Texas A&M University has complex parking policies spaced across many different lots and garages across campus which vary based on: the time of day, the time of the year, the pass that the individual holds, occurrence of sporting events, occurrence of other special events that may be going on, painted (sometimes very faintly) designations on the ground in the parking spot, etc.; and
- Whereas(2):** This sometimes results in students or visitors receiving parking tickets unexpectedly due to confusion or misinformation; and
- Whereas(3):** In some cases, if their vehicle is ticketed and not moved in some amount of time it can be 'relocated' or towed, further inconveniencing the student or visitor; and
- Whereas(4):** The existing ticketing system already is linked with the issued parking permit, which is linked to a student's NetID or a visitors email address.
